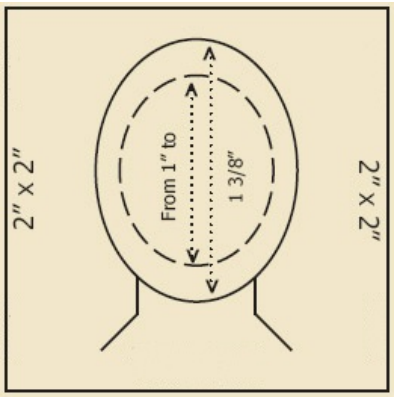
Passport Photo Guidelines

You are required to submit one passport type photograph of **EACH** of you.

Unless you are a professional photographer, it is not a good idea to create your own passport photos. Most drug stores now sell passport photos and are generally cheaper than photo studios or passport preparation businesses. Wherever you get your pictures, examine them closely before you pay and reject them if they don't meet these guidelines. Depending on where you live, you can expect to pay between $8 and $20 for a sheet of four pictures of one person.

The Rules:

- Can be smiling slightly or neutral expression. No squinting.
- Camera should be four feet from subject and at eye level.
- Background must be white or off-white.
- Must be in color.
- No more than 30 days old.
- Must be 2 inches x 2 inches or...
- International size, 35mm x 45mm (1.38 x 1.77 inches) are also acceptable.
- No sun glasses.
- No hats or headgear unless worn daily for religious reasons.
- Eyeglasses are okay but not required.
- No work uniforms of any type, including military.
- The diagram to the right is exactly the right size.



Lay your photo here to check size

Use a press-to-seal type sandwich bag to hold the picture. Don't use the type with the bulky zipper handle because they don't lay flat. Use a pen to write the full name on the back of the picture and use a marker to write the full name on the bag. Put one passport photo into the bag.

Replace each of the following Passport Photo Guidelines pages with your bagged photos.
